LEVCA In-Vehicle Charger

State of the art charging technology and ultra-compact size make the LEVCA an outstanding choice for charging two-way radio batteries in a vehicle. Its one piece design and small size simplifies installation, while its rugged construction ensures reliable operation. The LEVCA is ideal for use in public safety, utility, railroad and other vehicles where durability is required.

Key Features Include:

- Charging method maximizes battery life and maintains a full charge on the battery.
- Charges battery while on or off the radio.
- Radio holder provides a precision fit with the battery.
- Military grade charging contacts.
- Operates from 12V or 24V source. Includes DC power cable.
