HYDRO AMPLIFIERS

The DS18 Hydro Amplifier Series rugged, compact construction, yet sleek design, SMC (surface mount component) technology, provide its users with trouble free, waterproof (IPX6 Level), amazing sound quality. Engineered for all elements, these amplifiers are a great addition to your marine life including jet skis, boat, etc. as well as a great fit for Jeeps, UTV, ATV Motorsports! The HYDRO micro amplifiers come in 1, 2 and 4 channel stereo options. Also equipped with a removable face plate for setting controls, stainless hardware, and UV/Salt Fog Protection.

EXL SOUND Q FULL RANGE AMPLIFIERS

The people who live and breathe car audio demanded a higher-performing, extremely intelligent (technologically speaking), dynamic product line. With their compact size and new SMC (surface, mount component) technology, the EXL SQ amplifiers are the epitome of competition and sound quality amplifiers all in one sleek design. Boasting audio precision quality control verification and Tiffany RCA jacks, these amplifiers offer high quality audio reproduction for the audiophile and everyday listener alike. This line has built in LEDs that light up for power/protection/clipping and have the latest Class-D circuit design.
