

The Original Firestik

The most popular wire-wound CB antenna in the world. A proven performer since 1975. The loading coil on "KW" antennas is easily accessible. Will also receive the NOAA weather frequencies.

100% American made with 100% American materials. Custom blended, glass fiber reinforced shaft. Wound with heavy insulated copper wire to prevent oxidation and shorted windings.

KW2 (B/R/W) **Call For Price**

2' 5/8wv 100 Watts.

KW3 (B/R/W) **Call For Price**

3' 5/8wv 300 Watts.

KW4 (B/R/W) **Call For Price**

4' 5/8wv 400 Watts.

KW5 (B/R) **Call For Price**

5' 5/8wv 500 Watts.

Firestik II

Same as KW Series, but with bare-hands tuneable tip! (Black/Red/White).
