

OEM APPROVED VIBRATION DAMPING AND THERMAL INSULATION

HushMat Ultra™

HUSHMAT ULTRA is a pressure-sensitive, constrained-layer damper, which has excellent adhesion to many difficult to bond substrates such as oily cold rolled steel, automotive E-coat, primers and finishes, and many plastics including polypropylene. The aluminum foil constraining layer and specially formulated viscoelastic polymer layer combine to give effective vibration damping over a wide temperature range. Ultra is provided in rectangular or square sheets and can be hand-cut for special configurations.

HUSHMAT ULTRA is temperature resistant and will maintain adhesion through all automotive bake cycles including 288°C (550 degrees F) over-bake conditions. This allows its application at any stage of the production cycle. It can be applied to both pre-painted and top-coated metal surfaces. It is compatible with automotive coatings and will not contaminate spray operations. HUSHMAT ULTRA superior adhesion characteristics provide excellent corrosion resistance.

License Plate Kit

4" x 12" Ultra Damping Pad & License Frame w/Silencer Foam Treatment **#10600**

Speaker Kit

4 Sheets 12" x 6" 2 sq.ft. Black **#10110**

Starter Kit

4 Sheets 12" x 12" 4 sq.ft. Black **#10150**

Door Kit

10 Sheets 12" x 12" 10 sq.ft. Black **#10200**

Trunk/Compact Kit

10 Sheets 12" x 23" 19 sq.ft. Black **#10300**

Trunk/SUV Kit

16 Sheets 12" x 23" 31 sq.ft. Black **#10330**

Bulk Kit

9 Sheets 18" x 32" 36 sq.ft. Black **#10800**

Bulk Kit

30 Sheets 12" x 23" 59 sq.ft. Black **#10500**

Pro Roller

Pro Roller for application of HushMat Ultra **#90100**

Silencer Megabond™ Foam

Absorb and eliminate high frequency airborne noise. Sound dampening pads treat structural vibration - noise in a frequency range from zero to 1,000 Hz. Silencer Megabond absorbs airborne high frequency noise up to 4000 Hz frequency. Engine, exhaust drone, road noise and wind noise is well above 1,000 Hz. Cut down that noise and reduce the heat that comes from engine, headers, exhaust and catalytic converter - with one USA Made material - lightweight & self-adhesive HushMat Silencer Megabond. Similar to the application of foam on the ceiling and walls of a recording studio - HushMat's Silencer Megabond performs a similar function in the interior of vehicles.

1/4" Foam

2 Sheets 23.5" x 36" 5.8 sq.ft. Black **#20200**

1/2" Foam

4 Sheets 12.5" x 23" 2 sq.ft. Black **#20300**

Wave Breaker™

Wave breaker can be used to treat standing wave or back wave in every speaker in your car, truck, boat, rv, office and home. Wave breaker is a synthetic large cell foam placed directly behind the speaker magnet will eliminate standing wave/back wave from that speaker. When HushMat is placed behind the speaker back waves are absorbed and broken up in the wave breaker molecular structure. This prevents bounce back and related distortion. Therefore you get all the music you paid for out of that speaker.

Simple to use - cuts with scissors and just peel and stick. HushMat's incredible adhesive technology makes this product a very simple install.

Wave Breaker

2 Sheets 8" x 8" x 1/2" **#82450**
