

HOME PATROL

HOME PATROL

The First Digital TrunkTrackerIV Communications Receiver That Requires No User Programming!

Uniden's HomePatrol expands the scanner market and re-defines the term "simple". The HomePatrol is designed to be used by anyone - regardless of technical experience! No programming needed - simply turn the scanner on, enter your zip code, set the clock, select the service types you want to listen to, and in less than 3 minutes you are scanning digital & analog transmissions in your area! No banks, systems, groups, or frequencies need to be programmed - just your location!
